

WELCOME

# WELCOME

Start your own online business through water.

- based on health & sustainability -

*work with passion  
connect with like-minded people  
create financial abundance  
level up your health  
help the planet*

---

*Thank you for being here.*

I am so excited to connect with you and share more about this opportunity that changes my life more and more every single day and it could change yours, too.

On the following pages I'm sharing a lot of information and answering the most common questions that I get about how I am able to work online from home or anywhere in the world.

Enjoy and remember that you are so much more powerful than you think you are.

# WHO AM I?

My name is Alexandra. I was born and raised in Germany but have travelled a lot of beautiful places on this Earth since then.

Growing up I never wanted to be self-employed but I had a completely outdated picture in my mind about what it means to be self-employed which changed after learning about how people work online from anywhere in the world, so called “digital nomads”.

I realized that through the internet the world has changed and that having your own business doesn't necessarily mean investing ten thousands of dollars, renting a firm building, employing a lot of people and sitting in an office all day just as you do in a corporate job. For years now I've been learning a lot about business related topics, especially online and social media marketing, which made me confident enough to start making money online myself and to help others do the same.

# WHAT IS MY JOB?

This is a question I get so often,  
so here is a quick overview:

I invested in my own online  
business as a distributor for a  
machine that produces  
electrolyzed reduced water,  
promoting health, wealth  
and sustainability while  
working with a community of  
like minded entrepreneurs,  
mentoring others to create  
financial, location, time and  
inner freedom and a  
lifestyle they truly desire.

## WHAT CAN YOU EXPECT

# WHAT CAN YOU EXPECT?

our training videos  
teaching you how to  
build your own  
online business  
with 0 marketing  
experience

personal  
development videos  
supporting you to  
create a more  
positive mindset

support throughout  
your journey by me,  
weekly community  
calls to see how you  
and your business are  
doing and to help  
you stay focused and  
motivated

our slack channel  
where we share,  
inspire and hold  
space for each other  
and connect through  
weekly team  
calls

## WATER

# WHAT IS THIS WATER ALL ABOUT?

The water we promote is is  
electrolzed reduced, hydrogen  
rich performance drinking water  
which is very different to regular  
tap water or the bottled water you  
can find in stores.

Simply put, active hydrogen  
molecules neutralize active  
oxygen (free radicals) in your body  
that cause aging and disease. The  
more free radicals we neutralize,  
the more toxins we can effectively  
flush from our system.

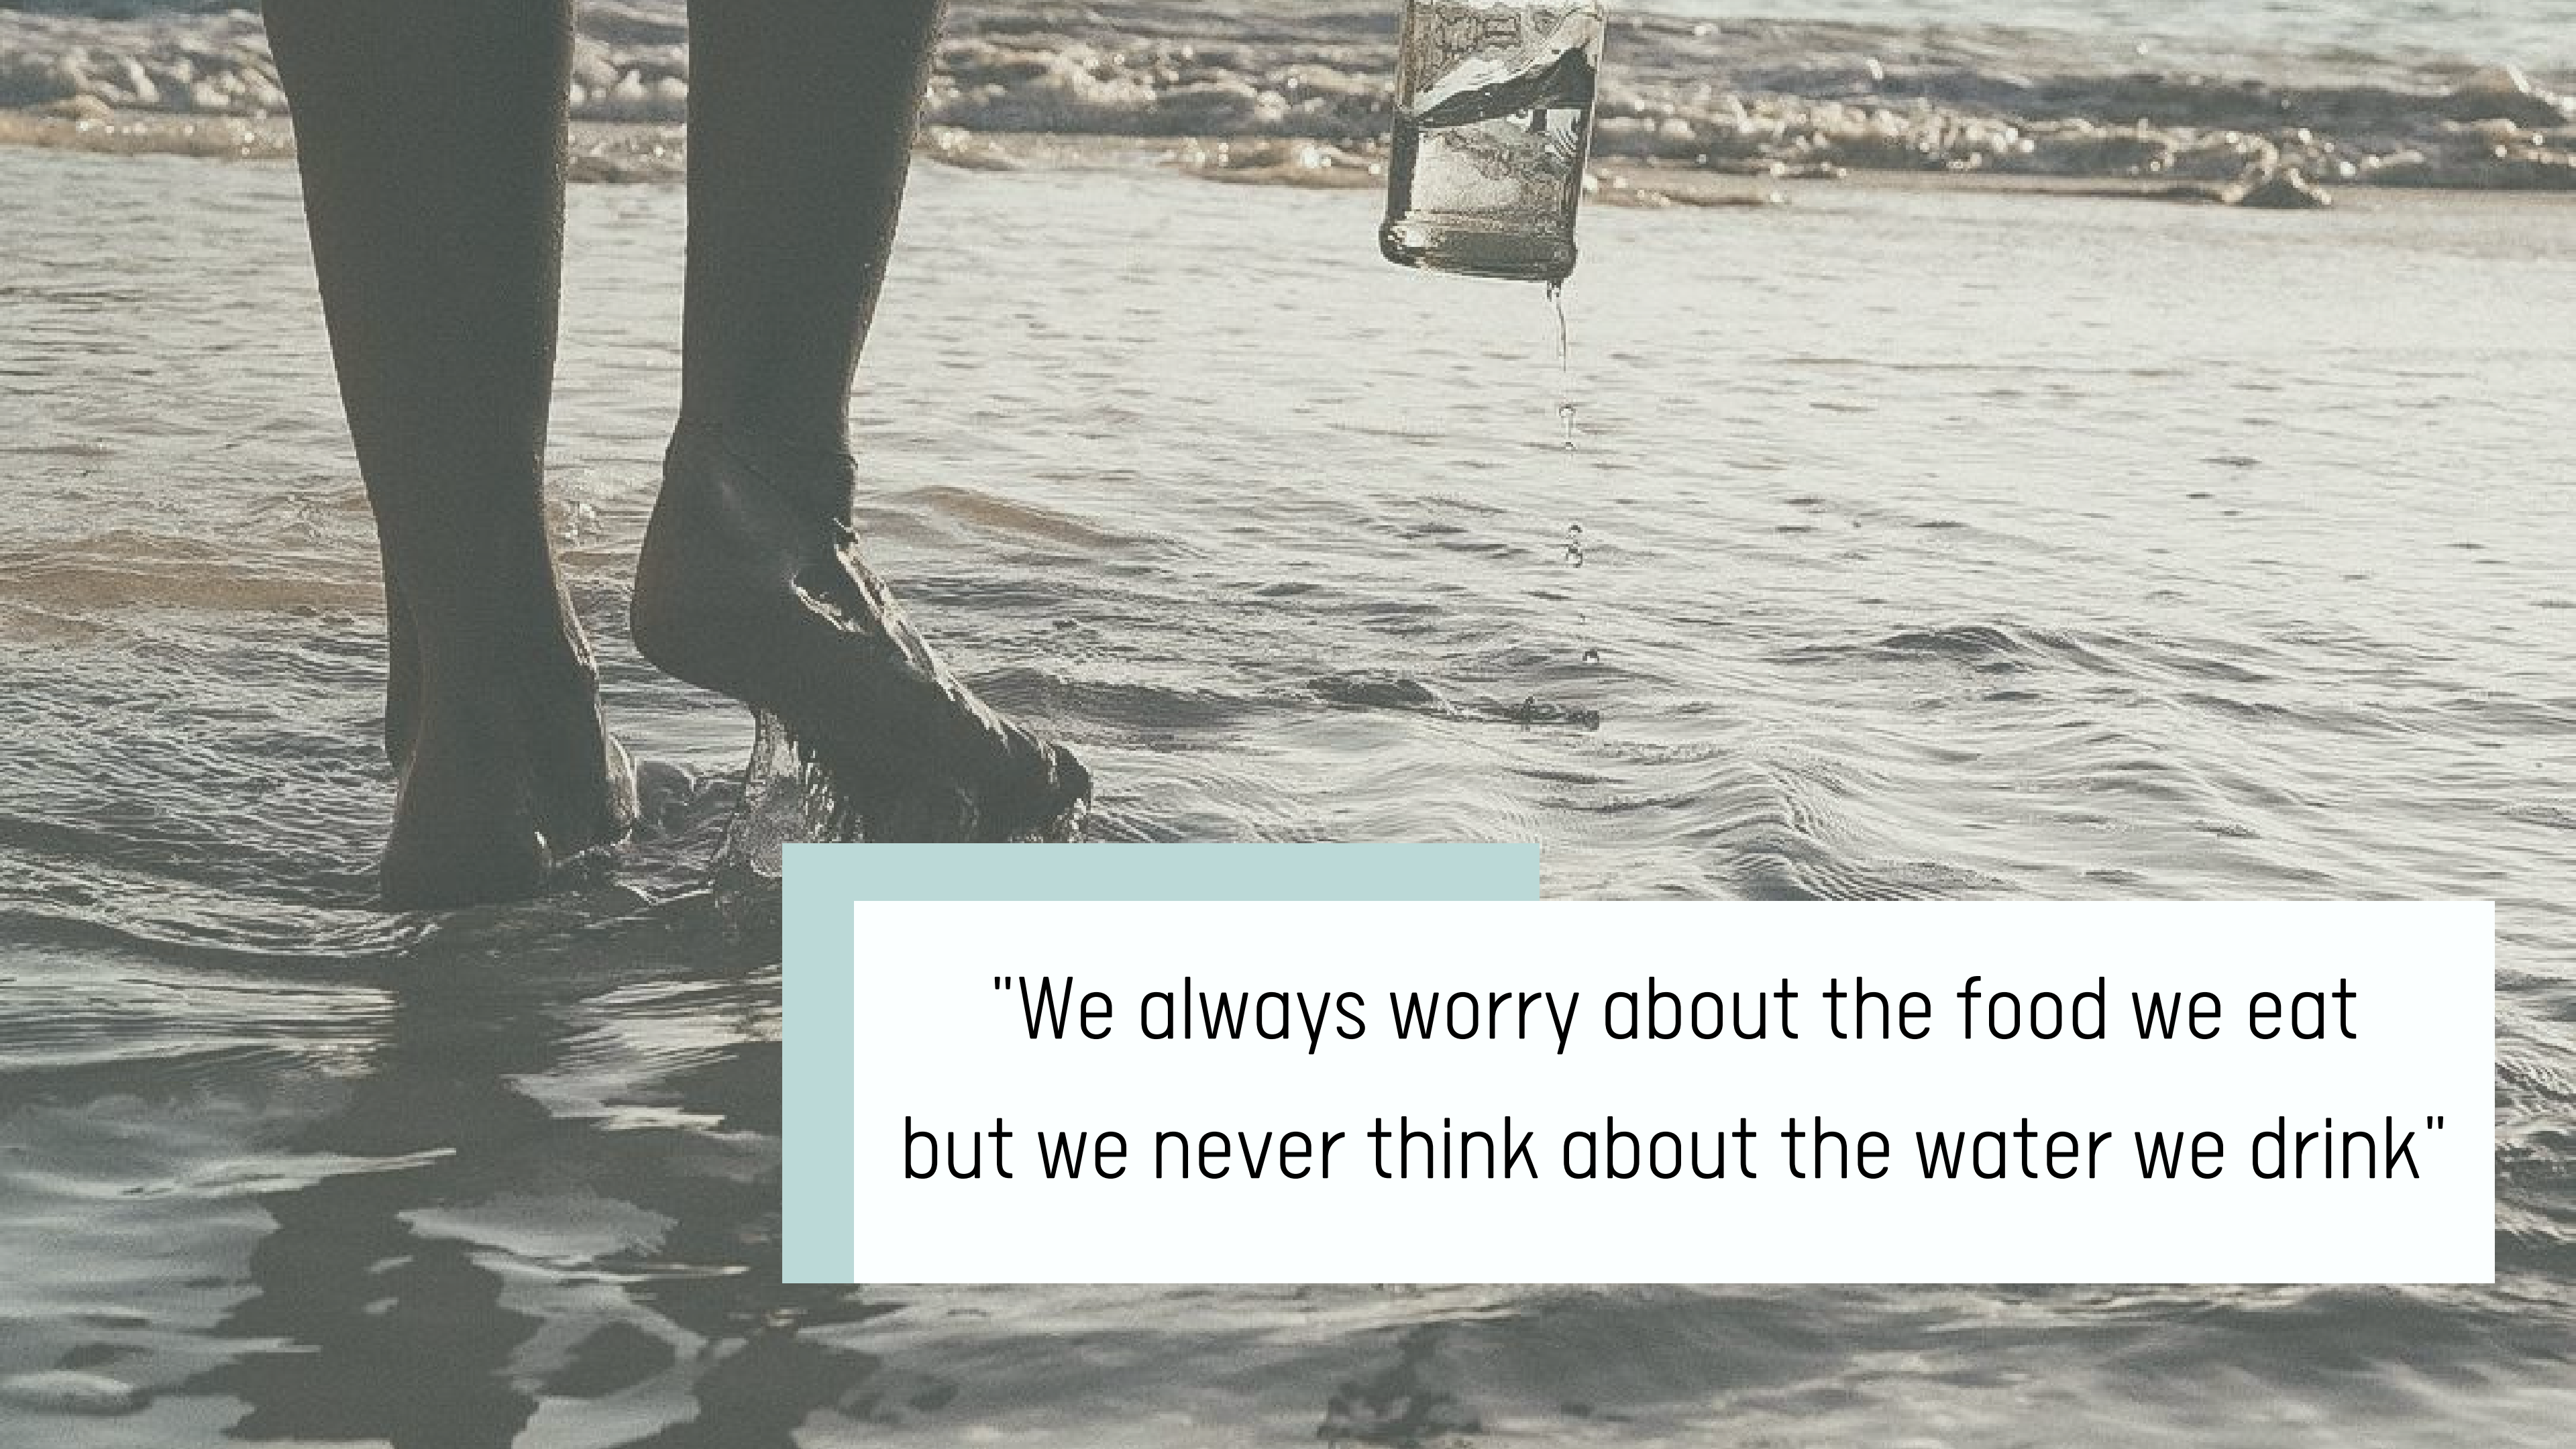

## WATER

Except for drinking water, the machine can produce several other types of water that can be used around the house to live a 'greener' life and replace household chemicals with nothing but pure water.

This powerful water also removes pesticides from our fruit and vegetables that cannot be removed by your regular water as well as chlorine, a harmful chemical that is found in our tap water.

Overall there are over 60 different uses of this water. Too keep this short, just let me know if you want more information about the water and I'll send it to you.

"We always worry about the food we eat  
but we never think about the water we drink"

# WHY IS TAP / BOTTLED WATER SO HARMFUL?

13000 - 15000 pieces of plastic are dumped into the ocean each day! They destroy coral tissues through physical damage. These corals produce 2/3 of our oxygen but already 50% of the reefs have gone.

The water we share is a plastic free alternative for water bottles that not only supports the environment but also your health.

Tap water contains chlorine that is harmful for your health and also the ocean. This chemical gets removed by the water machine and gives you clean drinking water. Depending on where you live you can also get pre-filters to remove more toxic substances.

ISN'T THIS AN MLM

# ISN'T THIS AN MLM?

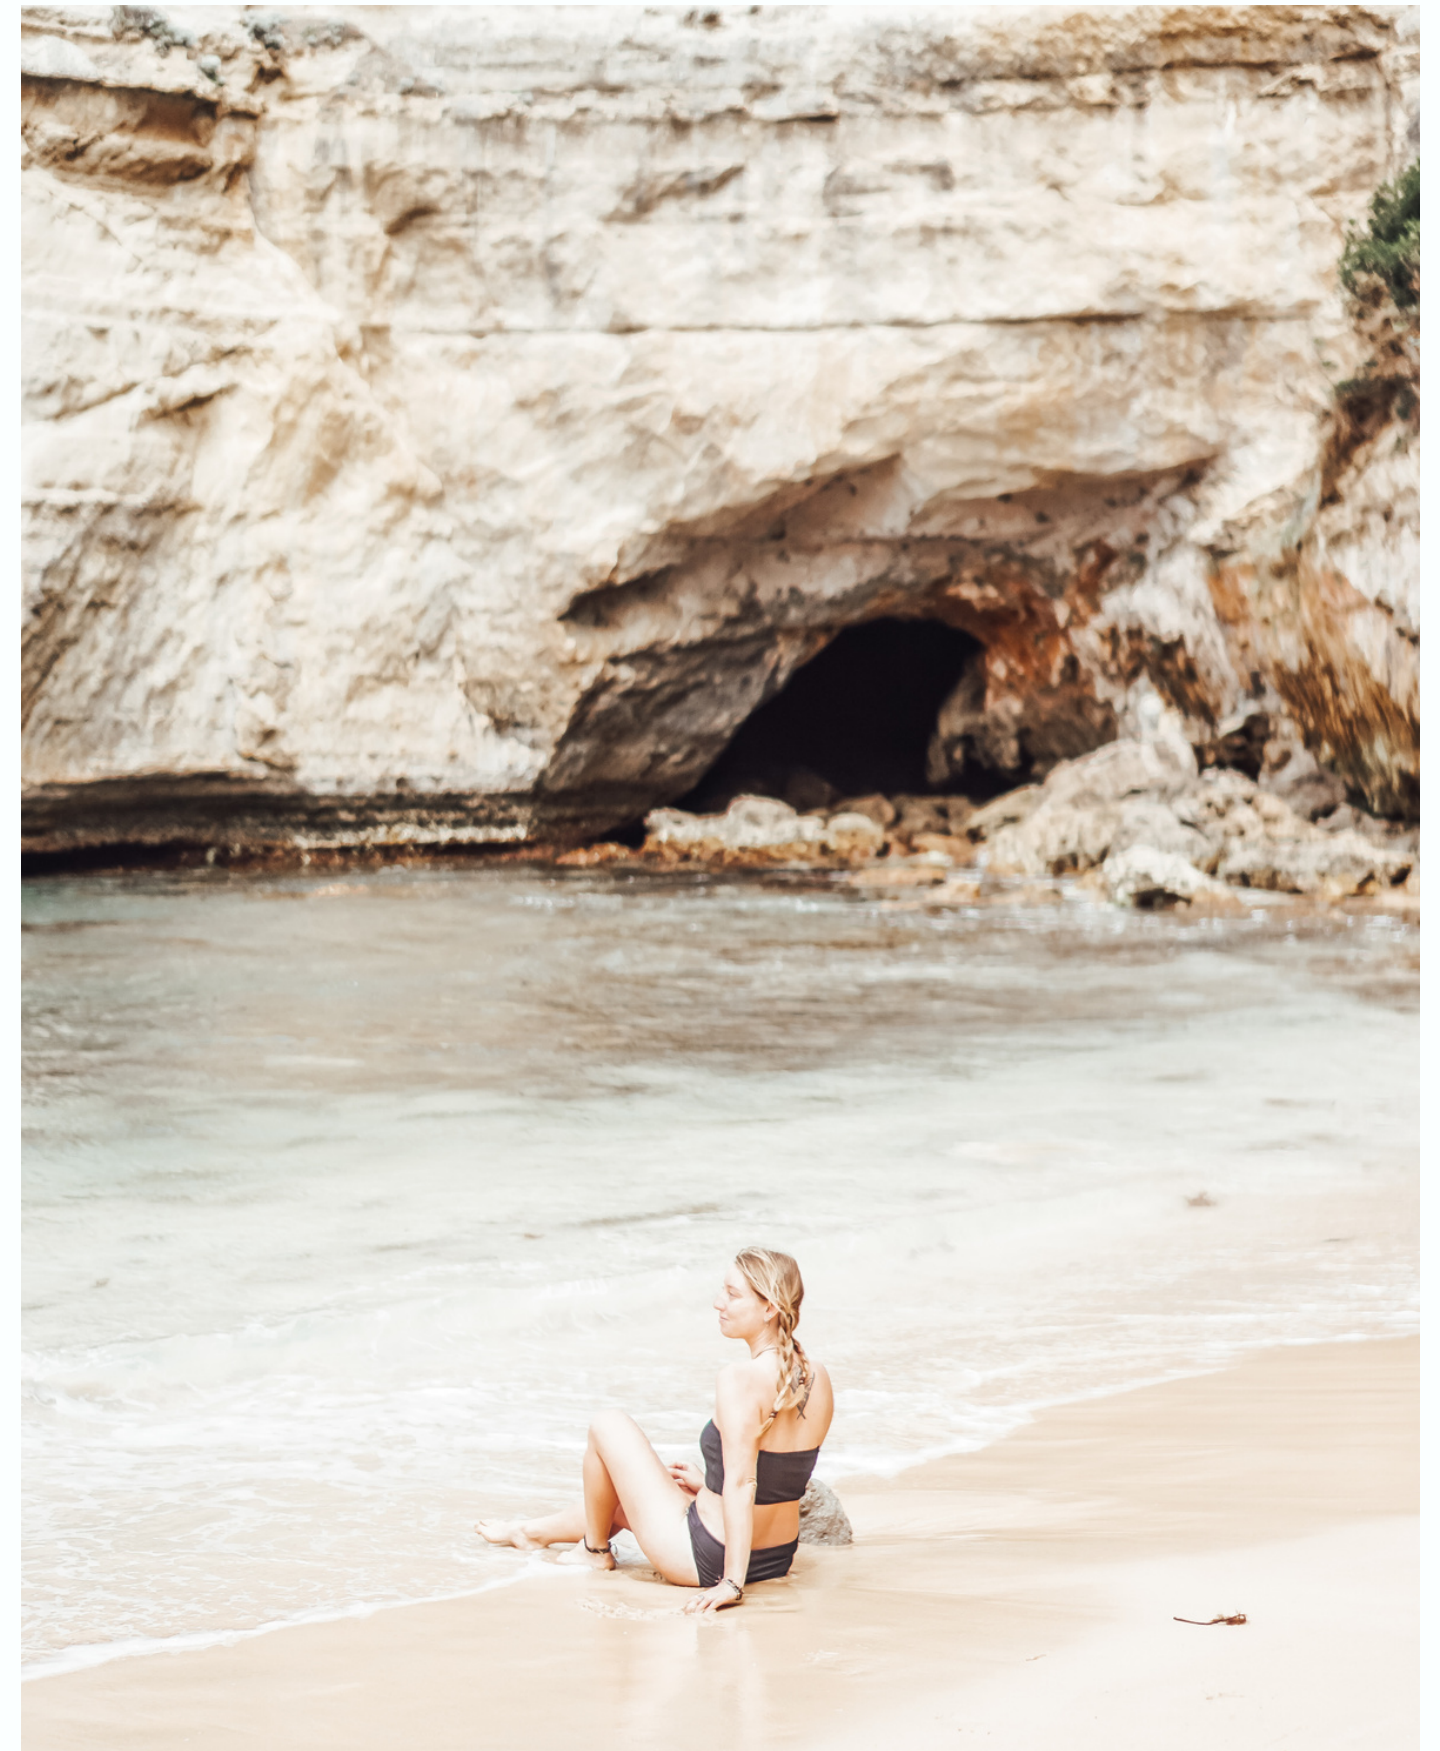

Traditional MLMs require your team to move up before you can, which means if your team isn't working, you're not making progress.

With this business you can essentially make more money than your upline.

You could quite literally do this entire business alone if you wanted.

This compensation plan is very unique and accredit by the "Better Business Bureau".

There are no yearly dues, inventory, paid samples, minimum or maximum quotas and no team required to rank up.

## CAN I DO THIS WITHOUT GETTING A WATER MACHINE?

It is absolutely necessary to invest into your own machine to get distributor rights and to experience the water.

That's the only way that you can share and inspire others coming from a true and authentic place.

Of course, we support you along the way. We have incredible financing options that will help you to kickstart your business and experience the most powerful water for the rest of your life.

## HOW MUCH MONEY CAN I MAKE?

The simple answer is:

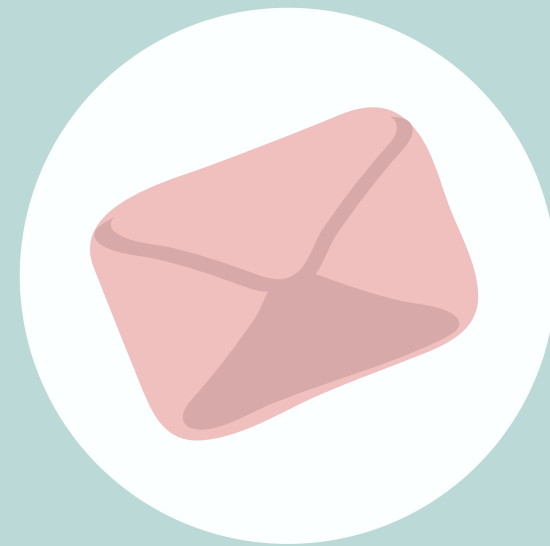

It all depends on how much time and energy you put into your business. But...

We are selling high ticket items which also means that we receive high commissions and these commissions increase the further you are with your business.

Not stating numbers here because it's very individual but you can ask me about the commission details, of course.

# ONE DAY OR DAY ONE?

I'm here to remind you of those big dreams you have and to give you the courage to follow them!

The right time never comes and too often "one day" becomes never.

You will never be experienced enough, have enough time, have enough money,... today is always the best day to start.

Stop consuming, start creating.

You spend hours on your phone consuming content, why don't you use it to create more, and to learn how to utilize social media in a way to generate an income?
